

The Kosyanchuks in Bilogorodka, Ukraine

2nd Quarter Report, 2023

April

We thank God that the Lord has helped us so far and keeps us and blesses the church with His blessings.

This month has been joyful for us and full of various events, although the anxiety has not disappeared. There is a war going on; people are dying; cities and villages are being destroyed; the enemy is raging; and the church continues to stand in the gap of prayer for our country. By the grace of the Lord and with your help, we were able to prepare and distribute excellent food gifts for the Easter holiday. We gave them to everyone who came to the service in the house of prayer before Easter, for which everyone was very grateful, and unbelievers promised to continue to come to the service.

We also held a festive service, and unbelievers from the village and neighbors came to the house of prayer and congratulated the church on the holiday.

It is painful to the heart, but there is a tendency that, when the fighting was near our homes, people were more open and reached out to each other. But when the war moved farther away, people began to withdraw again and did not seek God and His protection.

We also have good news for you: we have purchased a bus for the church. In recent times, this has been a big problem, there are distances of up to 5 kilometers where believers live, but there is no transportation. Now, with God's support and your great help, this issue has been resolved. We sincerely thank you for your prayers, for your sincere hearts, for helping us so much, and providing brotherly assistance in everything.

May the Lord bless you with His heavenly blessings and help you in your life and work in the field of God.

Amen

May

Time flies. It was only a moment ago that we celebrated Easter, and now it is time to get ready for summer camp. This year will be more difficult. The brother who was responsible for preparing and leading the children's camp has moved to another country.

Also, a couple of other young families who had assisted the church with children's ministry left Ukraine and still haven't come back. We have formed a new team. The man who is now responsible for the camp doesn't have any previous experience. He worries about it, but the church prays to God that He will help this brother with the preparation and leading.

We hope that our fears will leave, and we all will have strength and love in

this ministry. Please join us in prayer for this matter.

During the war, neither children nor their parents leave Bilogorodka for the summer holidays. Children occasionally come to church, asking whether they should expect summer camp here this year. A lot of those kids loved our answer: Pray—if God allows, we will have a camp! They also promise to pray for this.

Our church members are grateful for the bus you provided for us. Elderly people are especially thankful, because it was difficult for them to come to church for the services. We pray for the Lord's blessing upon you, for all your good works in providing for us at such difficult times.

May the grace and the peace of the Lord be with you.

Amen.

A. Kosyanchuk

June

By His love and mercy, the Lord has preserved and helped us right up to this current moment. We feel your prayers and brotherly support in these hard and difficult times.

Praise the Lord, for He has made us joyful for us this month. A young sister who is a student at

one of the universities in Kyiv has asked our church to baptize her. She had repented in our youth ministry before she went to college.

She and her grandmother are Christians. This young sister has been attending our services and helping with camps and other ministries, but she always postponed her baptism.

The Lord touched her heart during this difficult time for our country, and she decided to make a covenant with Him.

She had a conversation with our ministers, and she shared her decision to be a part of our church

since a lot of young people have left the country. Knowing about that, we started to disciple her and began the preparations for this holiday.

Our church is also in the process of preparations for summer camp. We are preparing the church facility and are getting the team ready.

We are praying for God to help us with this. Pray with us for protection during the time of the camp. Our hope is to hold this camp for the Lord's glory. We thank you for your brotherly love and care for us.

May God abundantly bless you. Amen.

Anatoly Kosyanchuk
